QUALITY POLICY

STM Group (UK) Ltd is committed to providing a pro-active, managed, and consistent high-quality service to its customers, in accordance with the defined context of the organisation. This will be undertaken in full adherence to ISO 9001:2015, together with other relevant industry standards, BS:10800:2020 Codes of Practice, legislation, and statutory requirements.

The scope of ISO9001:2015 Quality Management System (including the recommendations of BS:10800:2020) is focused on the provision of Security Services, Static Guarding, Keyholding & Response Services, and Customer Services, throughout the United Kingdom. This is achieved using experienced customer support service and security professionals, to provide bespoke solutions to both commercial and public customers.

STM Group (UK) Ltd strives to be one of the best service providers in the industry, aiming to continually enhance its reputation through a transparent and professional approach to service delivery, supported by a trained, equipped, and competent workforce.

Through application of the guiding principles within this Quality Policy, all STM Group (UK) Ltd employees are responsible for helping to deliver the optimum service to each customer through the delivery of best-in-class services which meet, and wherever possible exceed, respective needs and expectations.

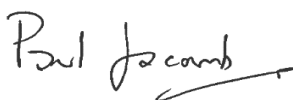

The STM Quality Policy is defined, and driven, by the following management principles and behaviours:

- Applying the Support, Trust, & Manage principles, in support of the STM culture ie:
 - Supportive (to clients and staff)
 - Built on mutual trust (based on the key principles of loyalty, integrity, and pride)
 - A commitment to deliver a proactively managed service (leaving nothing to chance)
- Building an internal/external customer environment, whereby STM clients (external customers) and STM staff (internal customers) are both receiving the very highest level of service, support, and positive engagement – from STM (as an organisation)
- Promoting an environment where staff feel proud to work for STM (including employee satisfaction levels)
- Transparency and honesty, via the STM Quality Assurance Programme
- Providing a safe and secure working environment, whilst encouraging innovation
- Providing proactive management, but with an effective speed of response assurance
- Assuming ownership of the service delivery process, including customer satisfaction measurement (objective and subjective), and focused customer relationship management
- Application of a policy of Continuous Service Improvement, through ongoing business analysis, performance evaluation, management review outputs, service defect recognition (including corrective actions)
- Application of focused risk and opportunity management programme

Senior STM management will review the Business Management System at planned intervals, to ensure its continuing suitability, adequacy, effectiveness, and alignment with the strategic direction of the organisation.

This evolving Quality Policy shall:

- be available, and maintained as documented information;
- be communicated, understood, and applied throughout the organisation;
- be available to all relevant, interested, parties.

Paul Jacomb
CEO, STM Group (UK) Ltd
